Assemblies

By Jenny Mosley and Ross Grogan

This original "active" assembly book is a touchstone for inspiring children and adults to love the Golden Rules. Ask any head who uses this book – it's highly valued for its ability to reach out and engage the children through active ideas and fun, yet at the same time teaches them empathy and awareness.

"Loved this book. It has saved me hours of work and the children have loved the assemblies ... Would highly recommend it. Thanks a million!" Bernadette Doherty, Headteacher, St Leonards Primary

ZONE MANAGER

Working alongside Midday Supervisors, Zone Managers will help playtimes run smoothly. They apply for the zone they most want to manage; are interviewed and get the job on the basis of the ideas and games they suggest they will implement in the zone. You may want to create teams of Zone Managers for each zone – one week on, two weeks off? – so they don't get bored. Zone Managers have the job of bringing in and putting away equipment and, if they show responsibility, later, Parent Associations might like to raise money to give them a budget for each zone.

ZONE MANAGER HATS

Make your Zone Managers easy to spot in your playground with our smart navy caps with bright yellow embroidery on the front (can be worn with our new Zone Manager tops to complete the ensemble).

Pack of 4 children's navy cotton baseball style hats with adjustable strap, embroidered with ZONE MANAGER on front panel.

PLAYGROUND FRIENDS

Playground Friends are given the responsibility of being FRIENDLY and noticing all the children who look lonely or who need some playtime support.

Many schools now have their Zone Managers to organise specific games in their designated zones. Playground Friends now have a more clearly defined role – based on friendship. Their job is to spot lonely children and engage them in games. So they may well team up with one or two children and go with them into the zone of the children's choice. Their specific focus is on the Friendship Stop (see page 7) as they have to quickly rescue any child standing there - I have seen schools where children stand there for ages and no-one's noticed! They are also trained in conflict resolution and peer mediation. More importantly they are the friends of Midday Supervisors! They meet

up regularly with them to see what extra help they might need, e.g. door, corridor, toilet or litter duties, are just a few of the things that have been requested by Midday Supervisors!

Golden Time

BETTER BEHAVIOUR THROUGH GOLDEN TIME

By Jenny Mosley and Helen Sonnet

This practical handbook explores Golden Time, a fantastic positive behaviour management system. The authors provide established strategies that will make a fundamental difference to the daily lives of adults and children in schools. This engaging book demonstrates that the quality of children's behaviour can be a key factor in determining a school's ethos. It clearly explains how to set up and develop Golden Time, explaining its psychological underpinnings and how to ensure that it remains 'Golden', thereby helping you to develop a system that will nurture the social, emotional and behavioural skills of your pupils and make a happier and more productive place for the whole community.

"We would recommend it for any staff room" Child Education

"A fabulous practical resource with theoretical underpinning... gold dust..." Special Children

I HAVE NOTICED... NOTELETS

Illustrations by Mark Cripps

Good self-esteem can grow through people noticing and feeding back positive things about you. Children with good self-esteem are more buoyant and resilient and don't feel the need to bully anyone. These simple notelets can be quickly torn off and given to children and adults (by children and adults) with a quick scribble of what was noticed that was so impressive. Adults need good news too, so why not write them to each other and then stick them on a staffroom board so people can read them but the recipient can take them home later.

Golden Time

"Quality Circle Time was another light-bulb moment for me. It seemed a magic way of addressing...reasons for behaviour difficulties. The framework of Golden Rules and Golden Time provides the motivation. Circle sessions provide the teaching of the skills children need in order to manage their feelings, develop empathy, and make and keep friends" Jean Gross, formerly responsible for the government's Primary National Strategy's work on behaviour and inclusion and director of Every Child a Reader the ECaT initiative.

GOLDEN CLASS BOOK (SET OF 3)

Illustrations by
Mark Cripps

Every class needs to hear GOOD news about themselves. Why don't you start a series of Golden Class Books where you record the various ways throughout the year how all the children have kept the Golden Rules? The book contains 32 blank pages with columns that read name, class, golden behaviour and date at the top. When

the going gets tough, you can open the book, read out all the good news and re-enter a phase of positivity. Writing up the golden behaviour in the book means it will be remembered all year.

CHUNKY SOLID SAND TIMERS FOR GOLDEN TIME AND FOR HELPING SOME CHILDREN PRACTICE THE GOLDEN RULES

Our sand timers have proved a powerful tool in creating positive sanctions when used for timing the removal of privileges during "Golden Time". They provide a clear visual warning, helping children judge the passage of time until they can re-join their favourite activities. They are also indispensable as an incentive...for children "beyond" Golden Time - those children who need to practice keeping one Golden Rule, just for a minute, and then build up slowly! For easy identification each timer is colour coded.

Calm Dining Halls

HOW TO CREATE CALM DINING HALLS

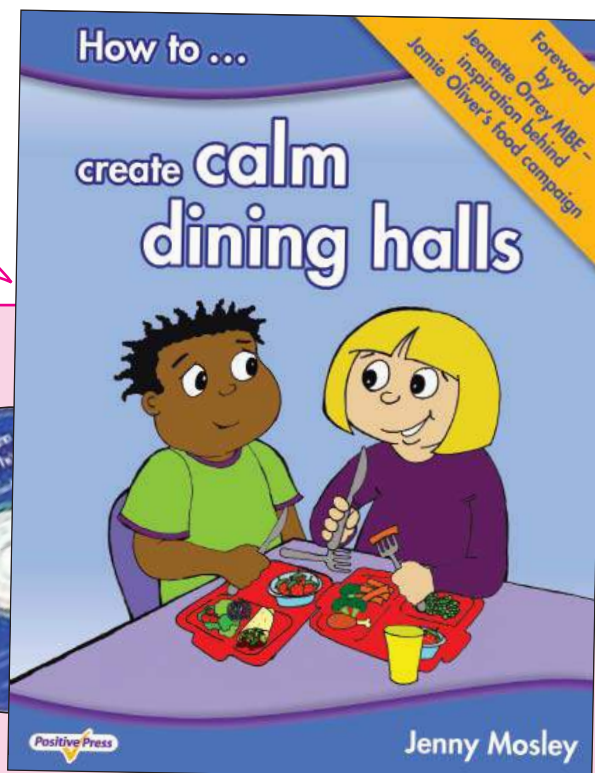

By Jenny Mosley with foreword by Jeanette Orrey, MBE

We believe this is the first book to be written about the school dining hall experience!

We know a healthy meal can help concentration, but dining halls are not just a place for children to refuel, they are also a place where children relax and learn valuable socialising skills. With Ofsted inspectors being asked to observe pupils in the dining hall in order to "consider how lunchtime and the dining space contribute to good behaviour and the culture in the school", and the introduction of universal infant free school meals - this book has never been more needed! It's very practical, based on Jenny's work in dining halls, with strong case studies of excellence throughout. Comes with a FREE CD-Rom of printable resources. It's a "must-have!"

(PP) 124pp b/w with colour photos, paperback / 254mm x 195mm + CD-Rom with unlimited user license.

QHWDIRH £19.95

"The teaching of table manners and eating etiquette are also part of the 'hidden curriculum' that goes on at lunchtime ... we are thrilled that the close work that we're doing with our kitchen staff and dining hall and lunchtime supervisors has been included in this book - we hope it will inspire lots of other schools." John Talbot, Headteacher, Smith's Wood Primary Academy, Smith's Wood, Birmingham

STOP PRESS!

"Inspectors must ensure that they...evaluate other aspects of personal development, behaviour and welfare, for example...during lunchtime, including in the dining hall, and break and playtimes..." 2015 Ofsted School Inspection Handbook

Some of the jobs Dining Hall Helpers may be asked to do are, preparing the tables, helping diners, especially younger children, with their meal choices and encouraging children to follow the "Dining Hall Rules" (see page 31) - for more ideas please see the "Dining Hall Helper" chapter in our "How to Create Calm Dining Halls" book (see above).
